EDUCATION

University of California, San Diego (UCSD) | La Jolla, CA

Master of Quantitative Finance, Rady School of Management | GPA: 3.7/4.0 12/2026

Relevant Coursework: Valuation & Financial Modeling, Financial Statement Analysis, Investment Analysis, Financial Econometrics, Advanced Financial Risk Management, Data Science for Finance – Machine Learning, GenAI in Business

B.S. in Business Economics, Minor in Psychology | GPA: 3.8/4.0 | Provost Honors 06/2025

Stuyvesant High School | New York, NY 06/2020

RELEVANT EXPERIENCE

Project Lead, Equity Valuation: Ferrari N.V. (RACE) | La Jolla, CA 06/2026

- Evaluated Ferrari's valuation outlook during the battery electric vehicle (BEV) transition by building a 10-year FCFF DCF model and performing sensitivity analysis across growth, profitability, and cost of capital assumptions
- Identified ~27% downside to intrinsic value (€226.84/share) and recommended a short position based on expected margin compression during the BEV transition

Project Co-Lead, Geopolitical Supply Chain Risk Analysis: NVIDIA Corp. | La Jolla, CA 06/2026

- Assessed whether NVIDIA's public disclosures accurately reflected geopolitical and supply-chain risks using NLP and statistical analysis of earnings calls and SEC filings
- Quantified Taiwan-based supply chain concentration using OECD ICIO and WSTS data (~7% global share), highlighting material exposure to China–Taiwan disruption and semiconductor industry concentration

Project Co-Lead, AI Automation: Private Equity Due Diligence Pipeline | La Jolla, CA 06/2026

- Built a 9-step AI-powered deal diligence pipeline using Claude API, RAG, and live SEC EDGAR integration to automate CIM parsing, financial analysis, news research, ESG scoring, and IC Memo generation
- Reduced analyst time per deal by 85–92% (9.5-20 hours to under 1.5 hours), estimating \$1,022 in cost savings per opportunity; validated performance with DeepEval across 10 industry test cases at 70% quality rule compliance

Investment Content Jr. Analyst, StepStone Group | New York, NY/ La Jolla, CA 06/2024 - Present

- Develop an AI-driven automation tool using LLM-based workflows (Claude) to auto-correct formatting inconsistencies in investor-facing decks, reducing manual edits and standardizing firm-wide brand compliance
- Analyze investor engagement and campaign performance using Salesforce and Google Analytics; coordinate cross-functional execution of an annual client conference (\$1.5M budget, 500+ attendees)
- Maintain brand integrity and consistency of investor-facing fund materials across active private markets fundraising campaigns, managing content operations within Seismic for institutional clients

LEADERSHIP & INVOLVEMENT

Elected Cohort Representative, MQF Class of 2026, Rady School of Management | La Jolla, CA 09/2025 - Present

- Represent 120+ students as liaison between students, faculty advisors, and program leadership, communicating cohort priorities, advocating student feedback, and coordinating academic, professional, and social initiatives

Selected Participant, UC Investments Academy, Rady School of Management | La Jolla, CA 09/2025 - Present

- Participate in investment analysis training focused on portfolio management and asset management careers

Teaching Assistant, Applied Market Research, Rady School of Management | La Jolla, CA 10/2025 - Present

- Mentor 100+ undergraduates on data analysis, research methodology, and interpretation of quantitative findings

Research Assistant, Rady School of Management | La Jolla, CA 11/2022 - 12/2023

- Conducted structured literature reviews, synthesized research on behavioral economics, negotiation, and incentive design, and edited manuscripts on economic decision-making to strengthen analytical rigor for publication

SPECIALIZED SKILLS

Languages: Armenian, Russian (fluent); Spanish (proficient)

Software: Python (pandas, NumPy, SciPy, matplotlib, seaborn, statsmodels), SQL, R (tidyverse, dplyr, ggplot2), Stata, Excel (financial modeling, pivot tables, data tables), PowerPoint, AI/LLMs (Claude, ChatGPT, prompt engineering)

Financial & Quantitative Analysis: DCF modeling, comparable company analysis, regression modeling, time-series analysis, scenario and sensitivity analysis, option pricing

Tools & Platforms: Salesforce, Google Analytics, Seismic

Certifications: Forage JP Morgan Investment Banking, Forage BofA Trading, EMT, CPR
