B.S. in Business Economics, Minor in Psychology | GPA: 3.8/4.0 | Provost Honors

06/2025

Stuyvesant High School | New York, NY

06/2020

EXPERIENCE

Marketing Analyst Intern, StepStone Group | New York, NY

06/2024 - Present

- Facilitate investor communications and capital-raising initiatives for private markets funds, coordinating cross-functional execution of an annual client conference (\$1.5M budget, 500+ institutional attendees)
- Design an AI-driven automation tool using LLM-based workflows (Claude) to auto-correct formatting inconsistencies in investor-facing decks, reducing manual edits and standardizing firm-wide brand compliance
- Analyze investor engagement and campaign performance data using Salesforce and Google Analytics; create dashboards to track fundraising and client outreach metrics

Teaching Assistant, Applied Market Research, Rady School of Management | La Jolla, CA

10/2025 - Present

- Lead weekly office hours for an undergraduate course in applied market research, guiding students in data interpretation and research methodology

Application Essay Mentor, Crimson Education | New York, NY

08/2023 - Present

- Organize advisory sessions, guiding the development of written materials, strengthening clarity and argumentation

Research Assistant, Rady School of Management | La Jolla, CA

11/2022 - 12/2023

- Conducted structured literature reviews and synthesized research on behavioral economics, negotiation, and incentive design to support academic publications
- Edited and refined manuscripts on economic decision-making, strengthening analytical clarity and argument development in preparation for publication

Emergency Medical Technician (EMT), Richmond County Ambulance | Brooklyn, NY

02/2021 - 07/2022

- Managed emergency response and documentation during early COVID-19 surge conditions, coordinating across dispatch, hospital staff, ambulance partners, and patient families in high-risk, resource-constrained environments

PROJECTS

Equity Valuation: Ferrari N.V. (RACE)

- Built 10-year FCFF DCF financial model projecting revenue, R&D intensity, EBIT margin compression, invested capital, and ROIC through BEV transition
- Derived WACC (8.29%) and performed multi-variable sensitivity analysis on margin, growth, and cost of capital
- Estimated intrinsic value of €226.84/share (~27% downside) and recommended short position

Geopolitical Supply Chain Risk Analysis: NVIDIA Corp.

- Built NLP and statistical models (Python) to analyze 10-K and earnings call disclosures, identifying significant underreporting of geopolitical risk in investor communications
- Quantified Taiwan-based supply chain concentration using OECD ICIO and WSTS data (~7% global share), highlighting structural exposure to China–Taiwan disruption and semiconductor industry concentration

SPECIALIZED SKILLS

Languages: Armenian, Russian (fluent); Spanish (proficient)

Softwares: Python (pandas, NumPy, SciPy, matplotlib, seaborn, statsmodels), SQL, R (tidyverse, dplyr, ggplot2), Stata, Excel (financial modeling, pivot tables, data tables), PowerPoint, AI/LLMs (Claude, ChatGPT, prompt engineering)

Financial & Quantitative Analysis: DCF modeling, comparable company analysis, regression modeling, time-series analysis, scenario and sensitivity analysis, option pricing
